

# STUDENT WORKSHEET 12

## EXPLORING HOW CHANGING THE PAST IMPACTS THE PRESENT

### **What if the Beatles had never formed?**

- Imagine how music, fashion, and global culture might be different without one of the most famous bands in history.

### **What if a student chose to study for a test instead of skipping class?**

- Consider how one small decision could lead to better grades, more confidence, and new opportunities later in life.

### **What if the invention of the internet had been delayed?**

- Envision a world where communication, education, and entertainment evolved much more slowly.

### **What if a key scientific discovery was never made?**

- Think about how everyday life would change if an important invention, like the light bulb or the telephone, had never existed.

### **What if a civil rights leader had never spoken out?**

- Explore how the fight for equality might have been affected if a major voice for change had been silenced.

### **What if a small family decision changed everything?**

- Imagine a scenario where a family chooses to move to a different city and how that one decision alters each member's future.

### **What if a community came together for one big change?**

- Create a scene where a town's decision to work together—such as building a community centre or cleaning up the neighbourhood—leads to unexpected benefits.

### **What if an everyday act of kindness created a ripple effect?**

- Consider how one kind gesture can lead to more positive actions in a community, changing lives in ways you never imagined.

### **What if a famous sports team made a surprising decision?**

- Imagine the consequences if a well-known team decided to try a completely new strategy or change a star player, and how that might affect the entire league.

### **What if a historical event turned out slightly differently?**

- For example, what if a minor decision in a famous battle or political moment had been changed? How would this small tweak have altered the course of history?
